## Superintendent's Report

---

To the School Board and Citizens of South Hampton:

I herewith submit my second annual report. Your consideration is respectfully asked. Notice the tables which follow.

### PERSONNEL

After many years of service to the schools of this State, 20 years to be exact and 14 of these in South Hampton, Mrs. Minnie Floyd decided to retire and devote her attentions to her home. She is still a valued member of your community and assumes an active part in its affairs. Miss Emily Shaffner, recently graduated from Bridgewater State College, was elected to fill the vacancy. Your other teacher by remaining in her position after offers from other places illustrates again the teacher's loyalty to you and your children as well as your appreciation. Continuity of training means a resulting continuity of progress on the part of your pupils. In some systems teachers advance from grade to grade with their pupils. The plan has much merit but is unnecessary in your system as the same aim is already accomplished.

### PUPILS

The progress of your pupils is well illustrated by the following results taken from the May 1934 tests.

|               | Reached or bet-<br>tered the grade | Below grade |
|---------------|------------------------------------|-------------|
| Grade 1 ..... | 4                                  | 1           |
| Grade 2 ..... | 2                                  |             |
| Grade 3 ..... | 3                                  |             |
| Grade 4 ..... | 4                                  |             |

The results are entirely pleasing and reflect sound and effective instruction. We see that only two pupils are below their grade standard. It goes without saying that these present the major problem for the teachers to correct during the present year. Lofty as it may seem the aim of present day education is against pronouncing any child a failure. Rather the stress should be to adjust the work to the ability of the child.

### COSTS

Below you will note a comparison of elementary school costs for each of the districts in this Union. A comparison of last year's net costs with those of the year before indicate just how much of a reduction has been accomplished. In your case the decrease is very marked and shows a will on the part of the Board to keep the costs down in accordance with the trends of the times. The value of State Aid to you is well illustrated by an examination of the following statistics.

| <b>Per Pupil Costs 1933-34</b> |                             |                   |                        |                    |         |

### IMPROVEMENTS

Some improvements have been made since the last report. The upstairs cloakroom has been painted to correspond with the lower room. A display shelf has been placed on the window side of the Primary room. Screens and screen doors have been provided. The bother of flies in the Spring and Fall has been eliminated. The value of screens cannot be computed but certainly is worthwhile. A new set of Weedon's Encyclopedias has been purchased and a new bookcase for all library and reference books built.

## APPRECIATION

The past year has been very trying and difficult. But midst it all we find a ray of hope in the loyal support accorded the schools by the citizenry of South Hampton. I express my gratitude to all who have contributed to the successes of the past year. To the School Board and teachers, I am most appreciative. Their cooperation has been of the right sort and has contributed much toward the advancement of the children's interests and progress.

Respectfully submitted,

HAROLD C. BOWLEY,

Superintendent of Schools.
